

71" CONNECTOR DBL BAR W/SUSPENSION HANGER BAR (MULTI-LAYER)

XMember Rack Connectors attach between any 2 Ultra Pro™ or Titan Series racks to provide additional stabilization, offer additional training and storage options, and provide opportunities to take your custom branding to the next level. The bar extension is great for attaching suspension equipment or resistance bands. Add custom laser-cut names, logos or phrasing to make your gym uniquely yours. This multiple layer version features up to six logo plate layers to capture your unique logo and name to display for all to see.

Features:

- Bar Extension Allows Options for Attaching Suspension & Resistance Training
- Secure To 3" Tubes with Carriage Bolt Fasteners
- Fits All Ultra Pro™ And Titan Racks
- Custom Laser-Cut Branding Available
- Intensive Multi-Stage Pretreatment Process For Long-Lasting Powder-Coat Finish
- Textured or Gloss Powder Coated Finish Available
- Custom Color-Matching Options Available

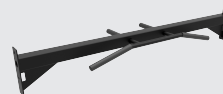

Customization options available:

MORE STRENGTH PER SQUARE FOOT™

Function & form combined with unique branding opportunities.
